On the basis of § 32 sentence 1 of the Protection against Infection Act (Infektionsschutzgesetz) of July 20, 2000 (Federal Law Gazette (BGBl.) I, p. 1045), last amended by Article 2 of the Act of March 19, 2020 (BGBl. I, p. 1018), the Senate hereby enacts the following:

Part 1 - Basic Obligations, Protection and Hygiene Regulations

§ 1 Basic Obligations

(1) Each person is required to reduce physical social contact with other people to a minimum.

(2) A minimum distance of 1.5 metres must be maintained when having contact with other persons. Sentence 1 shall not apply if physical proximity less than 1.5 metres cannot be avoided under the circumstances, in particular

1. in the provision of health care and nursing activities, including the supply of therapeutic, assistance, and nursing aids,
2. in childcare within the meaning of § 22 of Book Eight of the Social Code (Sozialgesetzbuch) – Child and Youth Services – in the version published on September 11, 2012 (Federal Law Gazette I p. 2022), last amended by Article 16a of the Act of April 28, 2020 (Federal Law Gazette I p. 960), in schools including institutions of the second educational pathway within the meaning of the Schools Act of January 26, 2004 (GVBl. p. 26), last amended by Article 1 of the Act of June 11, 2020 (GVBl. p. 538), and in vocational training,

(3) Subsections 1 and 2 do not apply to spouses, life partners, members of a person's own household, persons for whom custody and access rights exist, or to the critically ill or dying.

§ 2 Protection and Hygiene Plan

(1) Those responsible for events in companies and other establishments, in particular businesses, restaurants, hotels, sales outlets, places of entertainment, cultural and educational establishments, foundations, information and advice centres, educational offers, integration measures under the Social Code, publicly funded establishments, projects and measures, as well as for clubs, sports facilities, hospitals, doctors' practices, care facilities including outpatient care services and offers financed by fees and grants shall draw up an individual protection and hygiene plan in accordance with the specific requirements of the service, programme or event and submit it to the competent authority on request.

(2) When creating the protection and hygiene plan, the Robert Koch Institute's relevant recommendations for infection protection in their respective version and the specifications of the respective occupational health and safety authorities must be taken into account. The main objectives of the protective measures to be taken are reducing contacts, complying with the minimum distance of 1.5 metres and the maximum number of persons permitted for the respective area, controlling access and avoiding queues as well as ensuring sufficient ventilation in enclosed spaces. Notices regarding the rules of distance and hygiene must be posted in a clearly visible place. More detailed information on the requirements of the protection and hygiene plan, including regulations on the maximum number of persons or access and visiting regulations, can be determined by the respective competent Senate Department in agreement with the Senate Department responsible for health in a sector-specific general hygiene concept.

(4) Subsections 1 and 2 shall not apply to events pursuant to § 6(3) numbers 2 and 3.

(2) The attendance documentation may only be used for contact tracing in accordance with infection control laws and must contain the following information:

1. Name and surname,
2. Phone number,
3. Full address or email address,
4. Time the person was present and
5. Seat or table number, if applicable.

The attendance list pursuant to sentence 1 is to be stored or saved in a place not accessible to third parties for a period of four weeks after the end of the event or service and handed over to the competent authority on request if it is established that one of the participants was ill, suspected of being infected, infectious or a virus-shedder within the meaning of the Protection against Infection Act at the time of the event, visit or service. After the retention period has expired, this attendance list must be deleted or destroyed.

(3) Subsection 1 shall not apply to events pursuant to § 6(3) numbers 2 and 3.

8. in vocational education and training, where the minimum distance of 1.5 metres cannot be observed, with the exception of vocational schools.

(2) The obligation to cover the mouth and nose shall not apply to

2. persons who cannot wear a mouth-and-nose covering due to a health impairment or disability,
3. persons using another device to reduce the spread of droplet particles or
4. deaf persons and the hard of hearing as well as people who communicate with them, as well as persons accompanying them.

§ 5 Further Hygiene and Protection Rules for Particular Sectors

(1) Singing together in closed rooms is not permitted.

(2) For assemblies according to Article 8 of the Basic Law (Grundgesetz) and Artikel 26 of the Berlin Constitution, the person organising the assembly must draw up an individual protection and hygiene plan, which must specify the measures to be taken to ensure the minimum distance and the hygiene rules are observed, such as the requirement to wear a mouth-and-nose covering, if applicable, or the prohibition of participants chanting together during the assembly, as well as the number of participants permitted according to the usable area of the place of assembly when the meeting is held. The assembly authority may demand the presentation of this protection and hygiene plan from the person organising the assembly and obtain an evaluation of the concept in terms of infection protection from the competent public health office. When carrying out the assembly, the organiser must ensure that the protection and hygiene plan is followed. § 17a(2) of the Assembly Act (Versammlungsgesetz) in the version published on November 15, 1978 (Federal Law Gazette I p. 1789), last amended by Article 2 of the Act of December 8, 2008 (Federal Law Gazette I p. 2366), does not preclude wearing a mouth-and-nose covering to protect against infection.

(3) Authorised hospitals may carry out planned admissions, operations and treatments provided that reservation and availability requirements are met and that the return to a crisis mode can be implemented at short notice at any time if the pandemic situation intensifies. Further details shall be determined by the Senate Department responsible for health.

(4) When opening sales outlets, only one person per 10 square metres of business premises may be admitted in enclosed rooms. If the size of the sales floor is less than 10 sqm, a maximum of one customer may be admitted at a time. Access to department stores and shopping centres (malls) shall be regulated separately by the operator. The minimum area of 10 square metres per person pursuant to sentence 1 shall apply to all sales areas located there. Incentives for staying in the department stores and shopping centres (malls) are not permitted.

(5) For public and waiting areas in the public authorities' buildings, other public bodies of the state of Berlin and legal entities under public law directly under the jurisdiction of the state of Berlin, with the exception of the courts, subsection 4 sentences 1 and 3 shall apply mutatis mutandis, subject to sector-specific access regulations to protect against infection.

(6) In restaurants and pubs, food and beverages may only be consumed at tables. Self-service buffets are not permitted. The seating must be arranged such that a minimum distance of 1.5 metres is maintained between people who do not fall under the exception in § 1(3); no persons may be present within this distance. An enhanced cleaning and disinfection plan is ensured in particular by disinfecting the tabletops or changing table linens after each change of guests.

(7) With the exception of groups of persons in § 1(3), sport may only take place without contact and in compliance with the distance regulations according to § 1(2). In the use-related protection and hygiene plans, the minimum area per person required in square metres for enclosed spaces must be specified. Competitions in contactless sports are permitted, provided that they take place within the framework of a usage and hygiene concept made by the respective sports association and the concept has been approved in advance by the Senate Department responsible for sports.

(8) For cadre athletes, Bundesliga teams and professional athletes, exceptions to the restrictions of subsection 7 sentence 1 may be permitted by the Senate Department responsible for sports by written approval, insofar as this is absolutely necessary for practicing the sport.

(9) Swimming pools, open-air and beach pools may only be opened with the permission of the local public health office.

(10) In the area of childcare, the Senate Department responsible for youth and family affairs may, in cases where the use of qualified personnel in the facilities is restricted due to the infection situation, make further regulations in order to be able to fulfil the scope of care while observing the hygiene requirements in accordance with the Child Day Care Support Act of June 23, 2005 (GVBl. p. 322), which was last amended by Article 1 of the Act of June 11, 2020 (GVBl. p. 535).
